Preface

This catalogue of spare parts is based on latest stages of product design and development.

If you have maintained and serviced the technically matured equipment purchased from us in accordance with our instructions, there will scarcely be any need to consult this spares catalogue.

Should, in spite of this, the occasion arise to order spares, we would kindly ask you to state precise details as given in the catalouge, (please refer to "INFORMATION ON THE ORDERING OF SPARE PARTS") so as to avoid confusion.

We reserve the right to make design modifications.

Information on the ordering of spare parts

To supply you with the correct parts in the shortest possible time it is necessary to inform us about following details:
– Loader type, code and serial number (look identification plate)
– Spare parts number
– Required quantity of spare parts
